## **Prevenire è meglio che curare. Parola di Mini Press.**

Mini Press è nata nel 1991 con un obiettivo chiaro e preciso: risolvere il problema del controllo della pressione e del monitoraggio dei fluidi negli impianti oleodinamici.

Dopo una lunga esperienza nel settore, Dario Corsi, fondatore dell'Azienda, ha affrontato una delle principali cause di inefficienza del macchinario mobile: il buon funzionamento di macchine estremamente

Dario e Davide Corsi

complesse e costose poteva essere ostacolato da un banale problema di riduzione o modifica della pressione dei fluidi. La soluzione più ovvia, ma non per questo la più scontata, è stata quella di mettere a punto uno specifico sistema diagnostico che potesse garantire, in qualsiasi momento, luogo e condizione (anche la più estrema), la verifica immediata della pressione all'interno dell'impianto, senza interromperne l'attività. In più di venticinque anni di attività, Mini Press, perfezionando il proprio sistema diagnostico, ha saputo raccogliere l'attenzione e il favore dei costruttori più accorti diventando, nel settore,

uno dei principali e più qualificati produttori al mondo.

Il sistema Mini Press, impiantato all'origine, offre la migliore garanzia di efficienza, sicurezza e durata per tutte le macchine su cui viene installato.

Se la migliore cura è la prevenzione, i prodotti ed il sistema diagnostico di Mini Press sono un'ottima soluzione per evitare inconvenienti di funzionalità e costosi interventi di riparazione elevando, contemporaneamente, lo standard qualitativo e prestazionale delle vostre macchine.

## **Prevention is better than cure. The Mini Press philosophy.**

Mini Press aim and mission, ever since it was founded in 1991, has been one and one only: solving the problem of pressure control and monitoring fluids inside hydraulic systems.

After a life long experience in the field, Mr. Dario Corsi, the company founder, decided to tackle one of the most common causes of mobile machineries inefficiency: the proper functioning of even the most complex and expensive machines could be thwarted or hindered by a sudden and simple reduction or change in the fluid pressure. The most obvious solution to this problem, but not the simplest, was to create a specific testing system that would allow the immediate control of the pressure inside the machine, without stopping its functioning, at any moment of the working process, in any piece, or under any conditions(even the most extreme). In more than twentyfive years of activity, Mini Press has been able to establish itself as one of the major and most qualified producers of hydraulic testing equipment in the world. All of this was achieved through hard work at refining and improving its testing system, and by catching the attention and finding favour with the most attentive and significant manufacturing companies. Mini Press testing method, devised in-house, guarantees efficiency, safety and endurance for all the machines to which it is installed at construction.

If prevention is always better than cure, Mini Press products and diagnostic testing method are excellent for avoiding any future malfunctioning and expensive repairs and at the same time they can increase the quality and the performance of your machines.

## **Qualità, efficienza e rapidità delle forniture.**

Il nuovo "quartier generale" di Mini Press si sviluppa nella provincia bolognese, in Emilia, nel cuore della "valle dell'oleodinamica" italiana. L'organizzazione si è qui dotata di nuove tecnologie produttive e di controllo ad altissima qualità che, unitamente all'esperienza maturata nel tempo, le permettono di offrire un prodotto e un servizio apprezzati in tutto il mondo. La soddisfazione del cliente è da sempre, il nostro obiettivo primario. E' per questo motivo che oggi, chiunque ci conosca, sa che Mini Press non è solo un ottimo produttore di sistemi diagnostici ma, un vero e proprio partner commerciale sul quale contare.

## **Quality, efficiency and speed in supplying.**

Mini Press new "headquarters" are based in Bologna area, located in Emilia, the heart of the Italian "hydraulic valley". The new location is equipped with the latest technologies for production and the highest quality control. All of this, along with the experience gained over the years, enables Mini Press to offer products and service valued worldwide. Customer's satisfaction has always been our main aim and whoever knows us is well aware that not only are we excellent producers of pressure testing systems but also a true business partner, on whom rely on.

**MINIPRESS**  
DIAGNOSTIC SYSTEMS

## **"Rapid System", perfetto sistema di diagnostica per impianti oleodinamici.**

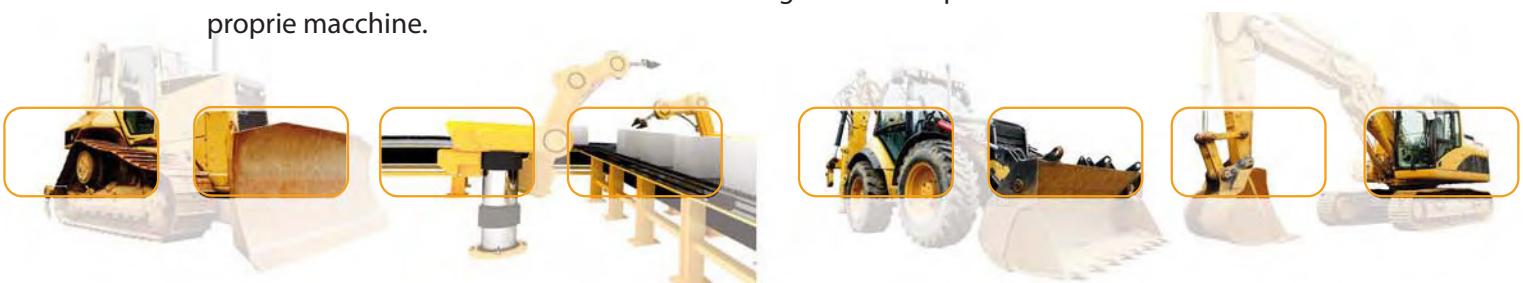

Con tutta l'esperienza e il know-how di cui dispone, Mini Press ha messo a punto **"Rapid System"**, una gamma completa di componenti miniaturizzati che consentono di monitorare ogni singolo sistema, localizzando tempestivamente il problema e impedendo l'insorgenza di altre complicazioni. **"Rapid System"** può essere utilizzato nelle fasi di collaudo, nelle operazioni di spurgo, di prelievo di campioni di fluido, nella manutenzione e nell'assistenza senza interrompere l'attività dell'impianto. Il sistema, riducendo notevolmente gli interventi sulle macchine, permette un considerevole risparmio di tempo e risorse, aumentando nel contempo la sicurezza per l'utilizzatore finale. **"Rapid System"** è l'unica soluzione che, al momento, permette un controllo realmente affidabile degli impianti oleodinamici, incrementando il valore intrinseco delle macchine su cui viene installato.

## **"Rapid System", the perfect diagnostic system for hydraulic plants.**

With all its experience and know-how, Mini Press created and finely turned "Rapid System", a complete range of miniaturized components which allow a constant monitoring and immediate control on any hydraulic equipment. By localizing immediately any problem in the system it avoids any further complications. "Rapid System" can be used at any time during the phases of testing, bleeding, fluid sampling, maintenance and assistance, without stopping the functioning on the plant. Thus reducing the amount of time and resources spent on servicing the machines, and at the same time further insures the operators' safety. "Rapid System" is the only solution that enables a reliable and effective control of hydraulics plants and at the same time increases the intrinsic value of the machine to which it is installed.

## **A disposizione di un mondo di costruttori.**

I prodotti e i sistemi Mini Press possono essere applicati a qualsiasi tipo di macchinario mobile. Una fitta rete di rivenditori può garantire la fornitura alle Aziende costruttrici di tutti i principali settori (agricolo, industriale, edile e dei trasporti) e in tutti i paesi del mondo. L'incredibile rapporto costo/benefici dei prodotti Mini Press può mettere qualsiasi costruttore nelle condizioni di elevare notevolmente gli standard qualitativi e di sicurezza delle proprie macchine.

## **At the Manufacturer's service.**

Mini Press products and systems can be applied to any type of mobile machine. With our comprehensive distribution network, we can supply everywhere in the world, in all the main sectors: agricultural, industrial, building construction or transport and in each sector the manufacturer can increase the quality and safety of their machines, thanks to the amazing cost/benefits ratio of our products.

## I nostri prodotti. Our products.

Miniprese prova pressione

Test couplings for pressure control

Tubo capillare alta pressione e raccordi

High pressure micro-hose and fittings

Strumenti di controllo digitali

Digital instruments for pressure testing

Strumenti portatili prova pressione

Portable pressure test kits

Manometri

Pressure gauges

Rubinetti esclusori per protezione manometro

Isolator valves for gauges protection

Misuratori di portata in linea

High pressure in-line flow indicators

Pressa pneumo-idraulica per microtubi

Pneumo-hydraulic crimping machine for microhoses

## Mini Press nel mondo.

Mini Press fornisce ed assiste i propri clienti, direttamente o attraverso concessionari di fiducia, nei principali mercati a livello mondiale, esportando in più di 50 paesi. Ci contatti per ottenere maggiori informazioni in merito alla gestione del suo paese di provenienza.

## Mini Press worldwide.

Mini Press supply products and assistance to its customers in the main markets around the world, directly or through appointed agents and distributors, exporting in more than 50 countries.

Contact us to get more information, we are glad to assist you.

- 2 Miniprese prova pressione  
*Test couplings for pressure checking*

- 16 Tubo capillare per alta pressione e raccordi  
*Micro hose for high pressure and fittings*

- 35 Strumenti di controllo digitali  
*Digital instruments for pressure testing*

- 37 Strumenti portatili prova pressione  
*Portable hydraulic instruments for pressure testing*

- 39 Manometri  
*Pressure gauges*

- 40 Rubinetti esclusori protezione manometro  
*Pressure gauge isolator valves*

- 42 Misuratori di portata in linea  
*High pressure in-line flow indicators*

- 43 Pressa pneumo-idraulica per microtubi  
*Pneumo-hydraulic crimping machine for microhoses*

**Applicazioni:**

- Controllo pressione
- Lubrificazione
- Spurgo aria
- Prelievo campioni olio

**Applications:**

- Pressure control
- Lubrification
- Air bleeding
- Oil sampling

**Fluidi:**

- Olio idraulico
- Olio a base minerale
- Compatibilità con altri fluidi a richiesta
- Compatibilità con azoto a richiesta

**Fluids:**

- Hydraulic oils
- Mineral oils
- Suitability with other fluids on request
- Suitability with Nitrogen on request

**Range di Temperatura / Temperature Range**

**Come ordinare**
**How to order**

Per ordinare i componenti indicare il codice riportato nelle tabelle e modificarlo sulla base delle seguenti opzioni ed indicazioni.  
Il codice in tabella, nostro standard, descrive articoli in acciaio carbonio con tenute in NBR.

Please indicate the code shown in the provided charts, and modify it, if necessary, on the basis of the following options and indications.  
The code in the charts, according to our standard configuration, is produced in carbon steel and assembled with NBR sealing.

**Opzioni configurazione / Form options**

**Tappo metallo con catenella e logo Mini Press / Metal cap with chain and Mini Press logo**

Lasciare invariato il codice (lettera finale "C") / Do not modify the code (final letter "C")

xxxxxxxxxC

**Tappo in gomma riciclata arancione / Orange recycled rubber cap**

Opzione possibile per le filettature M16X2 e M16X1,5 / Possible option for threads M16X2 and M16X1,5

**P**

Sostituire nel codice "C" con "P" / Replace "C" with "P"

xxxxxxxxxP

**Materiale acciaio inossidabile / Stainless steel material**

**-AI**

Aggiungere al termine del codice "-AI" / Add at the end of the code "-AI"

xxxxxxxxxx-AI

**Guarnizioni in FKM / FKM sealing**

**-V**

Aggiungere al termine del codice "-V" / Add at the end of the code "-V"

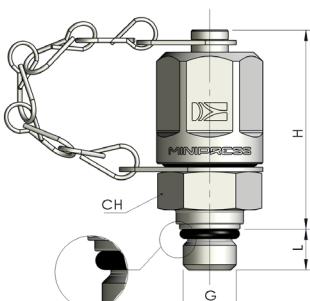

xxxxxxxxxx-V

**Guarnizioni in EPDM / EPDM sealing**

**-E**

Aggiungere al termine del codice "-E" / Add at the end of the code "-E"

xxxxxxxxxx-E

**Miniprese filettate M 16x2**
**Threaded test couplings M 16x2**

Innesto rapido femmina: innestandolo sul maschio consente il controllo dei parametri della pressione dell'olio in un impianto oleodinamico. Si adatta al sistema di misurazione Mini Press, grazie ad una minipresa con filetto di uscita M 16x2 per attacco a microtubo raccordato o portamanometro, avvitata su di esso.

**Norma:** ISO 15171-2

**Applicazione:** diagnostica impianti oleodinamici

**Pressione di esercizio:** 400 bar

**Materiale:** acciaio zincato

**Tenuta:** NBR

Female quick coupling: coupling it with the male part to control the parameters of pressure in the hydraulic systems. It has been adapted to the Mini Press diagnostic system through a test coupling male threaded M16X2 (to be connected to a hose assembly or a gauge adapter), screwed on it.

**Norm:** ISO 15171-2

**Application:** diagnostic on hydraulic systems

**Working pressure:** 400 bar

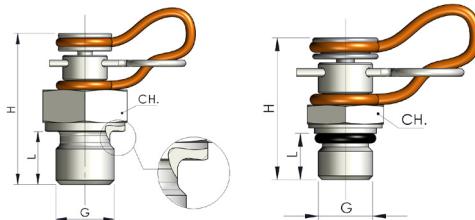

**Material:** zinc steel

**Seal:** NBR

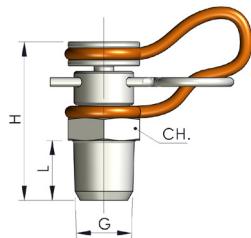

**Minipresa con innesto a baionetta**

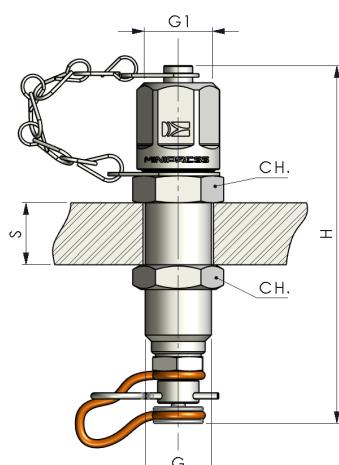

**Plug-in test coupling**

## Come ordinare un tubo raccordato

### How to order a hose assembly

Codice ordine / Order code			
RD2	31TTN000	36140000	L1500

- 1 Tipologia di tubo / hose type
- 2 Codice raccordo 1 \* / Fitting 1 part number \*
- 3 Codice raccordo 2 \*/ Fitting 2 part number \*
- 4 Lunghezza tubo in mm / Hose length in mm \*\*

\* I codici indicati nelle tabelle del catalogo, secondo nostro standard, descrivono articoli in acciaio carbonio con tenute in NBR. Per differenti opzioni si veda la pagina seguente / The codes in the catalogue's charts, according to our standard configuration, are produced in carbon steel and assembled with NBR sealing. For different options please refer to the following page.

**Configurazione tubo raccordato standard** Per tipologie di raccordi e lunghezze differenti si prega di contattare il ns ufficio commerciale

**Hose assembly standard configuration** For different fittings and lengths please contact our sales office

Scelta della tipologie di tubo / Choose the hose type		
RD2	RD3	RD4
<b>Opzione standard 1: ambo i lati raccordo femmina dritto M16X2 / Standard option 1: both ends straight female fitting M16X2</b>		
31TTN000 - 31TTN000	31TTN003 - 31TTN003	31TTN004 - 31TTN004
<b>Opzione 2: raccordo femmina dritto M16X2 + femmina dritto 1/4" per manometro analogico / Option 2: straight female fittings M16X2 + straight female 1/4" per analog gauge</b>		
31TTN000 - 36140000	31TTN003 - 3614OR03	31TTN004 - 3614OR04
<b>Opzione 3: raccordo ambo i lati femmina dritta M16X1,5 / Option 3: both ends straight female fitting 16X1,5</b>		
31TTS000 - 31TTS000	31TTS003 - 31TTS003	31TTS004 - 31TTS004
<b>Opzione 4: ambo i lati raccordo femmina dritto M12,65X1,5 / Option 4: both ends straight female fitting M12,65X1,5</b>		
31S12000 - 31S12000	31S12003 - 31S12003	31S12004 - 31S12004
<b>Opzione 5: raccordo ambo i lati attacco dritto baionetta / Option 5: both ends straight plug in connection</b>		
33TD0000 - 33TD0000	33TD0003 - 33TD0003	33TD0004 - 33TD0004
<b>Si prega di scegliere tra le seguenti lunghezze standard in mm / Please choose among the following standard lengths in mm</b>		
L200 - L400 - L630 - L800 - L1000 - L1500 - L2000 - L2500 - L3000 - L3500 - L4000 mm

**SERVICEMAN PLUS\***

- Funzionalità Plug & Play con riconoscimento automatico dei sensori, basta inserire il sensore desiderato e iniziare a misurare.
- Ampio display retroilluminato per una facile e rapida lettura anche in condizioni di luce scarsa.
- Diagnostica semplificata grazie alla memorizzazione dei valori MIN/MAX e alla visualizzazione diretta della pressione differenziale o della potenza idraulica.
- Guida all'uso semplice e chiara.

**SERVICEMAN PLUS\***

- "Plug & Play" using automatic sensor recognition, simply plug in and measure.

- Large back-lit display for quick and secure reading, even under difficult conditions.
- Simply troubleshooting using MIN/MAX memory and direct display of differential pressure or hydraulic performance.
- Simply and clear user prompts.

\* Disponibile in versione CAN Bus o analogica, eventuali sensori e flussometri da aggiungere al kit base.

\* Available in CAN Bus or analogue version, sensors and flow meters to be added to basis kit.

Le valigette prova pressione sono predisposte per il collegamento tramite raccordi avvitabili standard M16x2 e tubo capillare flessibile.

I manometri sono a molla Bourdon con riempimento di liquido (glicerina (ph. 99.5% di origine vegetale).

Classe di precisione (sul valore di fondo scala):

$\varnothing 100 \text{ mm}$  precisione 1%. -  $\varnothing 63 \text{ mm}$  precisione 1.6%.

Produzione secondo norma UNI EN 837-1.

Ogni kit è corredata di tubo capillare flessibile di mt 2 raccordato femmina 16x2 ambo i lati per connessione minipresa.

Per ogni valigetta è possibile scegliere il fondo scala di ogni singolo manometro in essa incluso.

Scale disponibili (bar): 0:16 - 25 - 40 - 60 - 100 - 160 - 250 - 315 - 400 - 600.

Per differenti necessità si prega di contattare il nostro ufficio commerciale.

Come ordinare: Si prega di scegliere il codice della valigetta prova pressione ed elencare le scale manometro desiderate. Per esempio:  
CBOXMED3 25 160 315

## Strumenti portatili prova pressione

### Portable hydraulic instruments for pressure testing

The pressure test kits are made for connecting any hydraulic equipment with standard threaded test couplings M16x2 and fitted micro-hose.

Pressure gauges are fitted with a Bourdon spring and liquid filled (glycerine ph. 99.5% Vegetal origin).

Accuracy (of full scale value):

$\varnothing 100 \text{ mm}$  accuracy 1%. -  $\varnothing 63 \text{ mm}$  accuracy 1.6%.

Production according to standard UNI EN 837-1.

Each kit is supplied with a hose assembly both ends female 16x2 (for test coupling connection) 2 meters long.

You can choose the scale of every single gauge included in a kit.

Available gauges ranges (bar): 0:16 - 25 - 40 - 60 - 100 - 160 - 250 - 315 - 400 - 600. For different requirements please contact our sales office.

How to order: Please choose the code of the pressure test kit and list the gauges required scales. For example:  
CBOXMED3 25 160 315

I rubinetti esclusori sono normalmente utilizzati a protezione del manometro. Doppia funzione:

- Smorzare lo shock della pressione in fase di apertura
- Isolare lo strumento dalla linea in pressione

Il dado girevole permette al manometro di essere orientato a piacimento e la presenza dell'OR al suo interno impedisce il trafileamento di fluidi tra il manometro e l'esclusore.

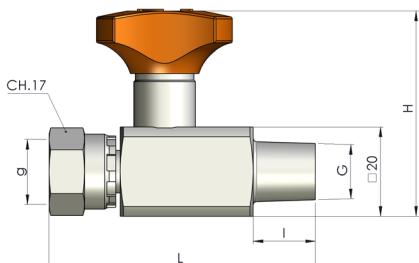

The gauge-isolator valves are normally used to protect the pressure gauge with a double function:

- To dampen the pressure surge during the opening
- To isolate the instrument from the system's pressure line

The gauge can be oriented thanks to the rotating swivel nut and the internal o-ring here inserted prevents any fluid leakage between the gauge and the fitting.

Gamma / Range	Caratteristiche / Features
<b>16 LPM</b> <b>30 LPM</b> <b>60 LPM</b> <b>120 LPM</b> <b>180 LPM</b>	Pressione 420 bar (6000 psi) / Pressure 420 bar (6000 psi) Classe di precisione 4% fsd / Accuracy within 4% fsd
<b>200 LPM</b> <b>300 LPM</b> <b>400 LPM</b>	Pressione 280 bar (4000 psi) / Pressure 280 bar (4000 psi) Classe di precisione 4% fsd / Accuracy within 4% fsd

I misuratori di portata sono progettati per rilevazioni continue o uso discontinuo.

L'ampio diametro di 63mm dello strumento di lettura analogico assicura controlli rapidi per monitorare le prestazioni di pompe idrauliche e per settare valvole di controllo del flusso.

Possono essere utilizzati su impianti idraulici fissi e mobili, ma anche su sistemi di lubrificazione e raffreddamento e su equipaggiamenti per l'erogazione di acqua e acqua-olio.

Per le loro caratteristiche i misuratori di portata possono essere utilizzati in condizioni avverse o in applicazioni dove non è possibile attingere all'energia elettrica.

Inoltre è possibile misurare la temperatura, tramite il termometro e la pressione, grazie alla predisposizione per la connessione con una minipresa da 1/4" G.

*Flow indicators are designed for continuos monitoring or intermittent use commissioning.*

*The large clear 63mm diameter dial ensure that quick checks can be made to determine pump performance and setting of flow control valves.*

*They can be used on mobile and industrila hydraulic circuits. Also lubrification and coolant system using oil/water.*

*These direct actinng flow indicators can be installed in hazardous areas or on applications were no power is available.*

*Moreover it is possible to check the temperature by the thermometer and the pression by the predisposition for the connection with a 1/4" G test coupling.*

Pressa pneumo-idraulica per microtubi  
Pneumo-hydraulic crimping machine for microhoses

**MINIPRESS**  
DIAGNOSTIC SYSTEMS

A) POTENZA DI PRESSATURA: 100 Tonnellate

B) DIAMETRO MAX DI PRESSATURA: 46mm con set di morsetti

C) RANGE DI PRESSATURA (mm) : 6,5 - 30

D) APERTURA MORSETTI: +20mm

E) APERTURA SENZA MORSETTI: 59mm

F) DIMENSIONI: 200X300h.330

G) PESO: Kg. 24

H) SICUREZZA: Conforme alle norme CE

Nono graduato con spia luminosa per segnalare il diametro di pressatura raggiunto.

A) SWAGING STRENGTH: 100 Tons

B) MAXIMUM CRIMPING DIAMETER: 46 mm including dies set

C) CRIMPING RANGE (mm): 6,5 – 30

D) MAXIMUM OPENING OF DIES SET: +20mm

E) MACHINE MAXIMUM OPENING WITHOUT DIES SET: 59mm

F) DIMENSIONS: 200X320Xh.330mm

G) WEIGHT: Kg. 24

H) SAFETY: Conforms To CE Standards

Graduated vernier with control light indicating the achievement of the required crimping diameter.

La pressa è una macchina robusta e leggera, studiata per essere facilmente trasportabile sul posto di lavoro; ideale per la graffatura di tubi flessibili impiegati nei circuiti oleodinamici. Non necessita di particolare manutenzione, a parte una periodica lubrificazione.

Codice prodotto completo di set di morsetti per pressatura microtubi **RD2-3-4: O100M+6,5**

*The machine is sturdy, lightweight and designed to be easily carried in work site; ideal for swaging hoses for hydraulic systems. It does not require any special maintenance, except for a periodic lubrication.*

*Item part number complete with set of clamps to crimp **RD2-3-4 micro hoses: O100M+6,5***
